REBELLION OF RED MONGOLS IS REPORTED

White Russian Newspaper Publishes Story of Murder and Revolt

NEWS CREDITED TO JAPANESE SOURCE

HARBIN, Manchuria, Dec. 21 (AP).—The White Russian newspaper Ropoor today published a report that Red Mongol troops in Outer Mongolia, hitherto under the domination of Soviet Russia, began a serious open rebellion to expel Soviet citizens.

The newspaper credits its information to a "certain consulate in Harbin." This was interpreted as meaning the Japanese.

INSTRUCTORS SLAIN
The report says that after slaying their Soviet instructors, the insurgents occupied Urga, forcing the Soviet government officials there to flee.

Influential Mongol Nationalists, the report continued, joined the rebels, while leaders of adherents of the Lamaism religion, a decadent form of Buddhism and the Mongolian national religion, were preaching a holy war against Russian domination.

The Soviet representatives in Mongolia were reported to have telegraphed to Moscow urging the immediate dispatch of reinforcements.

NO INFORMATION
TOKIO, Thursday, Dec. 22 (AP).—Representatives of the Japanese War Office asserted today they had no information on a reported Mongolian uprising.

Officials withheld opinions about the reported rebellion in Outer Mongolia, and pointed out that region has been a closed territory since it came under the domination of Soviet Russia a decade ago. They said Outer Mongolia was a "terra incognita" to the outside world.

COURT PROCESS IS TO PROCEED

B.C. Government Will Not Intervene in Burnaby Case Now Pending

Burnaby's telegraphic request that the Government appoint a commissioner for the administration of the district, coming as it did after application had already been made to the courts by the bondholders, cannot be considered by the Government, which will await the outcome of the application pending in the Supreme Court at Vancouver, Attorney-General Pooley said yesterday.

Members of the Government withheld comment on the affairs of the district meanwhile, though they found it hard to understand a reported statement that the Burnaby council threw the blame for the district's present plight on the Province, in view of the fact that the special investigator Burnaby engaged to examine its own affairs.

LOCAL CAUSES
The report of the investigator ascribed Burnaby's present plight to conditions within the area, and as due in part to extravagance and unplanned outlays for works, etc. Permanent officials of the district were involved in the report, but elective officials came in for some frank comment.

Meanwhile some officials of the Government were studying an Ontario form of commission, under which a provincial inspector of municipalities, two representatives of the municipalities, and one each of the banks and bondholders form a permanent council which supervises the administration of municipal areas under commission control. The plan would require legislative change to be adopted in this province, but certain features of the Ontario system were cited as attractive.

SCULPTOR FINDS BUST DISFIGURED

Crown Prince Michael Admits Kicking Nose Off—Political Plot Was Feared

NEW YORK, Dec. 21 (CP).—The New York Herald-Tribune today publishes the following special dispatch from Bucharest, Rumania: "A story has leaked out of the royal palace of how a Rumanian sculptor, who is making a bust of eleven-year-old Crown Prince Michael, had found his work without a nose when he arrived to resume his modeling."

Consternation prevailed. Court officials began a rigorous investigation, fearing that the vandalism was part of a political plot aimed at the rule of King Carol II. There was a good deal of trepidation about telling the heir to the throne.

"But Michael heard the news with a smile. 'I don't like that nose, so I kicked it off,' he explained."

Eleven Injured When Fire Breaks Out in Christmas Decorations

PEORIA, Ill., Dec. 21 (AP).—Eleven persons were hurt and burned, none seriously, as flames tonight caught flimsy Christmas decorations in a downtown five and ten-cent store and flared rapidly through the building, destroying it. Hundreds of shoppers, adults and children, scurried to safety. Several salesgirls, trapped on the third floor, escaped by leaping into fire nets.

Store officials said the fire was caused by an exploding electric light bulb which spluttered fire over tissue paper decorations.

Firemen credited quick action by officials of the store, a unit of the S. S. Kresge Company chain, for averting loss of life. The officials opened doors and advised shoppers to leave quietly. There was no panic.

Farmer and Family Wintering in Craft Built Out of Barn and House—Truck Provides Power for Two Purposes

OTTAWA, Dec. 21 (CP).—Somewhere on the banks of the Mackenzie River, in the neighborhood of Fort Norman, lies one of the strangest river craft in the world, a ramshackle structure of planks and boards which once was the house and barn of a Peace River farmer, who, with his wife and family, is slowly laboring his way down to Canada's new Eldorado at Great Bear Lake.

EXCHANGE COSTS CAUSE DEFICIT

Ontario Faces Shortage of Nearly \$2,000,000 in Year's Business—Expenses Heavily Cut

TORONTO, Dec. 21 (CP).—Ontario faces the new year with a deficit of \$1,975,000. In the pre-arranged statement issued today by Hon. E. A. Dunlop, provincial treasurer, the estimated surplus of \$365,000 had given way through force of circumstances to the deficit of nearly \$2,000,000.

Exchange charges were directly responsible for the deficit, Mr. Dunlop said, and direct employment relief also accounted for the province being "in the red." "Without the extraordinary charge of \$2,330,000 for New York exchanges and direct unemployment relief, \$800,000, aggregating \$3,130,000, the year would have shown a surplus of \$1,164,000," the provincial treasurer reported.

Departmental expenditures during the year were reduced by \$4,628,000.

Building Wrecked By Gas Explosion

CHICAGO, Dec. 21 (AP).—A fire department lieutenant and at least five tenants of a two-story building were injured in an explosion which rocked the building and then toppled it to the ground early today. Fire followed, making attempts at rescue hazardous, and it was at first feared many had been trapped in the blazing ruins.

After a cursory investigation of the cause of the blast, officials said it probably was due to gas.

Says Conditions in New South Wales Greatly Improved

SYDNEY, N.S.W., Dec. 21 (AP).—Summing up his record after six months in office, Premier B. S. B. Stevens of New South Wales said today 20,000 factory employees have been re-engaged, building permits have been multiplied by three and stock exchange securities have improved in price by an average of 15 per cent.

MOUNTAINS ARE GROWING

Scientists Attribute Recent Earthquakes to Increase in Nevada Ranges

SAN FRANCISCO, Dec. 21 (AP).—Earthquake shocks felt last night and early today over a considerable portion of the United States Far West were attributed by the Carnegie Institution Seismological Laboratory at Pasadena to the growth of mountains in Nevada.

After shocks were experienced today, particularly in West Central Nevada, the apparent epicentre, chinamen toppled and windows were broken at Fallon.

OVER WIDE AREA
The main shocks, starting at 10 o'clock last night, were felt over a wide area, from Denver, Colo., to Long Beach, Calif.

Dr. Charles Richter, Pasadena seismologist, said today the epicentre should show some "interesting effects," when examined. He said the after-shocks showed a continuous movement of mountain growth and that the upward thrust of the earth was of considerable area.

Dr. Beno Gutenberg, an authority on earth movements, said the quake was directly related to the upward thrust of the earth in Pleasant Valley, Nevada, in 1915. A forty-foot vertical fault appeared at the surface as the result of that movement.

Dr. Gutenberg described the current shocks as evidencing a southward bending of the mountain range, and said, showed the pressure behind the thrust apparently had been between ten and twenty miles below the earth's surface.

DECISION REMOVES MUCH UNCERTAINTY
WINNIPEG, Dec. 21 (CP).—Ruling of British Customs authorities at London today, that Canadian wheat shipped to the United Kingdom must carry proof of direct consignment to a port in the United Kingdom in order to qualify for the preference of 6 cents a bushel, will remove a great deal of uncertainty in the opinion of prominent exporters here.

"The interpretation of the London ruling precludes the possibility of any export movement of wheat from Canada to the United Kingdom through any United States ports," James Richardson, one of the leading exporters of wheat in the Dominion, stated tonight.

"Our Canadian ports are quite capable of taking care of all Canadian grain shipments," Mr. Richardson said. "It is clear-cut decision, and removes a great deal of uncertainty which has had the effect of slowing up movement of grain down the lakes during the past season."

BOTH COASTS TO BENEFIT
Mr. Richardson believed strict enforcement of the British regulations regarding the preference would divert the flow of grain evenly to Pacific and Atlantic ports in the Dominion. Already arrangements were being made at Vancouver to put out 15,000,000 bushels of grain destined for the United Kingdom.

The proximity of Alberta to the Pacific Coast encouraged the shipment of the province's entire crop through Pacific port channels, Mr. Richardson said. He pointed out that at the present time it was

TIELMAN ROOS TO ENTER POLITICS

South African Judge Resigns From Bench—Is Former Minister of Justice

CAPETOWN, S.A., Dec. 21 (CP).—Tielman Roos, former Minister of Justice in the Nationalist Government of Prime Minister J. B. M. Hertzog, today resigned membership in the Appellate Division of the Supreme Court, and announced he would re-enter politics.

His action was regarded as significant in view of the fact that in a recent speech he indicated he was in disagreement with the policy of the Government.

The Government has been subjected to vigorous criticism, especially from the South African Party, which is led by the veteran soldier, scientist and statesman, General Jan Christiaan Smuts, for its refusal to abandon the gold standard.

An order-in-council making these provisions, so far as Canada is concerned, was passed today and will become effective after publication in the Canada Gazette, which will be this week and next week.

HEAVIER PENALTY FOLLOWS APPEAL
VANCOUVER, Dec. 21.—Appeal of Lou Sang from a police court conviction for having 414 quarts and 301 pints of unlawfully manufactured whiskey and rum in his possession on Musquam Indian Reserve was dismissed in county court. Judge Ellis increased the sentence, imposed by Magistrate J. A. Findlay, from three to six months. In addition, the Chinese must pay a \$500 fine, or serve a further six months.

R.C.M. Police last September unearthed the liquor, together with nineteen forty-gallon barrels of mash and a still. The plant was concealed under ground and approached by a tunnel, the entrance of which was hidden by heavy brush.

Alberta Gov't Is Urged to Act on Exchange Default

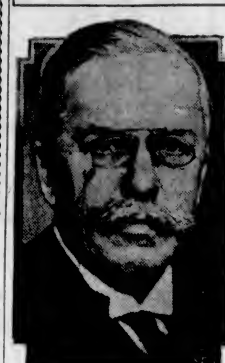

EDMONTON, Dec. 21 (CP).—Telegrams urging the Alberta Government take action to enforce the city of Calgary to pay exchange on meeting debentures totaling over \$2,500,000, due in New York January 1, were received today by Premier J. E. Brownlee of Alberta.

The requests were made from actual debenture holders as a result of the Calgary City Council voting to make the debenture payments in Canadian funds only, ignoring the

adverse exchange requiring \$300,000 additional to meet the bonds in United States funds.

Premier Brownlee said the whole question of Calgary's refusal to make the exchange payments was under consideration in the light of effect the city's action would have on other municipalities in the province also having to meet debentures in United States funds. Whether any representations would be made to the Calgary city council, the exchange payment was unknown.

Only Three More Days Of Buying

Only three more shopping days to Christmas. Today, tomorrow and Saturday Victoria's buying public will have an opportunity of "browsing" around the various shops selecting Christmas gifts and they will have a little more time. Instead of the stores closing at 6 o'clock they will remain open until 10 o'clock each of the days.

Although the extension of time for shopping has been adopted by most of the merchants in the city, there are many shops that will observe the usual hours, therefore, it is to the advantage of shoppers to their selecting during the day-time.

Owing to the inclement weather at the beginning of the week, it appeared certain that there would be a great rush of shoppers during the closing days of the holiday, but merchants reported that the volume of business yesterday was equal to last year and, if anything, slightly better.

It is the urgent appeal of all shopkeepers that buying be equally distributed throughout the day. The morning is a good time to shop and the purchaser may avoid traffic congestion by using the morning hours. Remember! Only three more days.

Spun Revolver And Shot Sister

ROCHESTER, N.Y., Dec. 21 (AP).—This is the way the cowboys do it in the movies, said Joseph Arena, nine, as he showed his six-year-old sister, Josephine, how to spin a revolver on his finger today.

As he twirled the weapon it discharged, the bullet entering the girl's body near the heart and inflicting a wound hospital physicians said probably would result fatally.

GERMAN SUPER-TARIFF APPLIES TO ARGENTINA

BERLIN, Dec. 21 (AP).—Effective January 10, 1933, the German super-tariff applicable to imports from Argentina, will be increased tenfold generally, it was announced today.

The so-called super-tariff is intended to counteract Argentina's favored nation clause involving European countries, especially Germany, and also to protect German farmers.

FATHER OF TWENTY MYSTERIOUSLY SHOT WHILE EATING MEAL

No Clue to Identity or Motive of Murderer Who Fired Through Window to Kill Track Walker at North Bend

PROVINCIAL police are concentrating every effort to track down the murderer of Nick Wolfyniak, track walker at North Bend, killed several days ago, but so far the identity of the killer is as obscure as the motive that prompted it. Details of the killing, which have reached Victoria, mark it as one of the most cold-blooded and unwarranted acts of assassination on record.

TWENTY-SIX ARE JAILED

Mounted Police Make Swift Arrest of Alleged Communist Leaders

EDMONTON, Dec. 21 (CP).—Twenty-five men and one woman, alleged leaders of the proposed "hunger march" that was broken up here on Tuesday, were arrested today as they attended a conference in the Ukrainian Hall, headquarters of the marchers.

Arrests of the alleged Communists were carried out by Royal Canadian Mounted Police, who surrounded the building. Officers walked into the hall and picked out the men they wanted. All of the men arrested were placed in the city jail.

In several instances, fleet-footed constables had to run half a block before they caught some of the so-called leaders, who attempted to leave the building.

As a result of the arrests here today a demonstration which had been planned at the headquarters of the "hunger marchers" failed to materialize.

The names of those arrested are: William Murray Patterson, Alex Miller, Peter Kyforuk, Harry Johnson, A. W. Farmer, Antony Mowachowski, William Keyes, Lewis Hallman, Pete Kasian, James Brighwell, Sam Rosin, Antony Woytycha, Ben Swaney, John Nickle, Mike Hayduk, Peter Dolej, Jack Seria, Richard Leta, Karol Staudinger, Tom Draper and Mike Kotuk.

FUGITIVE CONVICT FINDS SANCTUARY

TRENTON, N.J., Dec. 21 (AP).—Robert Elliott Burns is no longer a fugitive from justice—so far as New Jersey is concerned.

Governor A. Harry Moore early tonight flatly refused to send the convict-author back in a Georgia chain gang from which he twice escaped.

After listening to tales of alleged brutalities in chain gangs, of the use of "sweat boxes" and "stocks" in Georgia prison camps, Governor Moore announced he decided the case "upon its merits." The United States constitution leaves the Governor no apparent discretion in extradition proceedings, he said, but the United States and New Jersey Supreme Courts have ruled he may decide upon merits.

HOUSE PASSES BILL FOR BEER

Action by U.S. Senate Promised Immediately After Christmas Holidays

WASHINGTON, Dec. 21 (AP).—Trampling down all dry opposition, United States House of Representatives wets jammed the Democratic 32 per cent beer bill through Congress unchanged today and laid it on the doorstep of the Senate, where early action is promised.

The big vote, 230 to 165, approving the measure was the first successful move by wets in either branch of Congress to modify the Volstead Act since it became law twelve years ago. Shouts and applause greeted Speaker John N. Garner's announcement of the bill's passage. The size of the affirmative vote surprised even the most active advocates of the measure, including Speaker Garner, who said: "It was bigger than I expected, and shows that a majority of the House wants to follow the will of a majority of the people."

PARTY LINES BROKEN
It was the most severe defeat suffered by the House prohibitionists in many years. Party lines were shattered in the final vote. Among the 230 votes for the bill 123 Democrats, ninety-six Republicans and one Farmer-Laborite were recorded. Sixty-four Democrats joined 101 Republicans in opposition. Lane ducks voting for included seventeen Democrats and forty-three Republicans, and voting against, twelve Democrats and sixty-nine Republicans.

Immediately after the House action, Senate leaders announced plans for prompt action in their branch after the Christmas holidays.

PROVIDES FOR TAX
In addition to legalizing 32 per cent beer by weight, the measure provides a tax of \$3 a barrel. Federal protection to dry states and leaves to the states the regulation of distribution, except that wholesale and retail sellers must obtain Federal licenses.

The ways and means committee estimated it would return up to \$300,000,000 annually in revenue.

BRITISH MAIL IN TOMORROW

Postmaster Expects Volume
of Christmas Mails to
Equal Last Year

Victoria's share of the largest Christmas mail ever brought to Canada from Great Britain on any one ship, and which arrived at Halifax on the Canadian Pacific liner *Ss. Montrose* last week-end, will be 400 sacks of letters and parcels. It will arrive here tomorrow, according to Postmaster G. H. Gardner. Another British mail via New York is due here Saturday or Sunday.

Mail for points as far east as Winnipeg and as far south as California, still continues to reach the local postoffice, while the bulk of the mail for nearby points, as well as for local distribution, was beginning to grow in volume yesterday.

Again the postmaster would call the attention of all using the local institution for dispatching their Christmas mails, to get them in as soon as possible in order to avert congestion on Saturday, and assure delivery on or before that day.

ALWAYS BUSIEST
The three days immediately before the holiday are always the busiest for the local staff, and the indications are that the volume of Christmas business will be almost as large as that of a year ago, the decrease, if any, not being greater than 10 per cent. It is anticipated.

Everything has been running smoothly to date, while the staff is considerably larger than in former years. This, in line with the policy adopted by the postoffice department, helps to relieve the unemployment situation to a slight degree, and does away with the necessity of working the regular employees overtime.

FUNERAL TODAY

VETERAN RAIL MAN RETIRING

A. D. MacTier, Vice-President of Eastern Lines, Ends Service Dec. 31

MONTREAL, Dec. 21 (CP).—A. D. MacTier, vice-president of Eastern Lines, Canadian Pacific Railway, will retire on December 31. E. W. Beatty, K.C., chairman and president of the company, announced here today. Mr. MacTier retired under the company's pension rules.

Mr. MacTier has spent forty-five of his sixty-five years of life with the company, which he joined in 1887 as clerk in the general baggage department here. His rise to the vice-presidency was gradual through many branches of the business.

A native of Perthshire, Scotland, Mr. MacTier came to Canada when a young man. In 1913 he was appointed general manager, Eastern Lines. Nearly six years later, in October, 1918, he was appointed vice-president, Eastern Lines.

The railway, which celebrated its fiftieth anniversary in 1921, was an infant when Mr. MacTier joined it.

HOTELS PREPARE FOR CHRISTMAS
Many Visitors Are Expected to Arrive in Victoria for Holiday Season

The Christmas dinner at the Empress Hotel, with the production of "Alice in Wonderland" following it, is attracting the usual attendance of Yuletide diners. Approximately 500 persons have made reservations for the event, which includes a number of parties from United States points. A large number from Seattle, Tacoma and other Sound points will arrive in Victoria on Friday and Saturday to spend the week-end here and take advantage of the Christmas dinner which has become an attractive feature of the holiday season in the city.

In preparation for the holidays, the Empress Hotel has been decked in Yuletide green and other appropriate decorations.

The other hotels of the city have similarly taken on attractive appearances and are planning for increased patronage for the holidays. The Dominion Hotel, with its newly-improved rotunda, is presenting a very attractive appearance.

Star of The Holy Night
F. M. KELLEY

Ages have passed since shepherds stared
In wonder at a star that flared
Its magic splendor o'er the scene
That housed the Holy Nazarene.
As, prompted by the spirit's stir,
Bearing their frankincense and myrrh,
The wise men found Christ where He lay
Beside The Mother in the hay.

Changeless, while ages come and go,
One mark its radiance on the snow,
That lies along the no-man's-land
And many a lonely valley fills.
Where, breaking through the long white drifts
A weary trapper halts and lifts
His hope-filled eyes to bless the light
That means so much to all this night.

In close communion with the dark,
Spreading her wings, a gallant bark
Is wafted with a wondrous speed
Along the lanes of tropic seas.
Where on the dancing water rows,
The splendor of a bright star glows;
And caught along the schooner's keel
Gladdens the steersman at the wheel.

The stars may wander in their spheres,
But one shall blaze through endless years
Symbolic of The Faith that stands
Triumphant in all Christian lands.
This night, the Spirit mankind greets
I met along the city streets;
And blessed myself, nor wondered why
The Presence touched me, passing by.

Tribute Paid to Late Mrs. Richard Jones
(CONTINUED)

There are many, particularly those who remember the earlier days in Victoria, who will deeply regret the death of an esteemed friend, the late Mrs. Richard Jones.

Her early childhood was associated with the more or less family life of the settlement, which in a still smaller form had originated in Port Victoria. Her parents, Captain and Mrs. Moutat, had arrived from England by sailing ship, the *Marquis de Bute*, whose destination was the Port. On this voyage the ship also brought many other well-known pioneers, who have since been prominent in making the history of this city and of the province.

Although Mrs. Jones was not actually born in Victoria, she arrived here at a very early age and her life and interests have been interwoven with the welfare of the city. She was always an enthusiastic Victorian. She possessed a very sweet disposition, full of charity for all who were in need of it, and a character that helped to mould and sweeten the lives of her friends. A great deal had to be done by the early settlers in originating and developing the institutions which are now existing, and in putting them on a sound footing as their need became apparent.

Mrs. Richard Jones developed a talent for music. In addition to having a very fine voice, she was a good organist, and her ability in reading music made her a leader in the first oratorio to be presented, and in the choral societies which were subsequently formed. At that time music was one of the chief amusements of the community. There are many in the musical

world of Victoria who remember her with great pleasure.

She was, however, of a retiring disposition and the many kind actions she performed and the help she gave in building up many of our charitable institutions was only known to a few of her most intimate friends.

MORE FAMILIES APPLY FOR AID

The Salvation Army's many friends are again rallying to the Christmas cheer effort, as evidenced by the number of cheques found in the morning's mail, according to appeals.

Adjutant Sharp, the secretary of the relief fund, reports a heavy increase over last year in the number of needy families investigated to date, and the army is desirous of being in a position to meet every case of need; that while the average family is enjoying their Christmas dinner, it may be with the thought that no one has been overlooked.

Already a considerable amount of relief has been supplied to urgent cases, and many expressions of gratitude have been received for the fuel and clothing supplied.

Funds are urgently needed, and those responsible appreciate the fact that a number have realized this and have sent in their usual donations, and others have increased their contribution this year, and it is hoped that the response to the "Pots" will be a generous one.

BURIAL RITES CONDUCTED

The funeral of Thomas Ernest Beveridge was held on Wednesday afternoon under the auspices of St. Andrew's Lodge, No. 49, A.F. and A.M. The service was conducted by the worshipful master, O. M. For Japan ports, the Nippon Yusen Kaisha motorliner, *Heian Maru*, passed out to sea yesterday afternoon. The *Heian* had a fair passenger list, and a big cargo of British Columbia products, including 1,000 tons wheat, 1,000 tons flour, 1,000 tons spelter, 1,000 tons herring, 300 tons general, and 300,000 feet of lumber, in addition to 400 crates of chickens.

Ernest Seitz To Play Here Next Month

Ernest Seitz, one of Canada's most distinguished musical products, and who is favorably known in two continents as a solo pianist, is to give a recital in Victoria on Monday, January 23, under the auspices of the Musical Art Society.

Mr. Seitz is a Canadian born and educated. He began playing the piano at the age of three and a half years, and appeared in public recitals at the age of nine. He studied for seven years under the late Dr. A. S. Vogt, principal of Toronto Conservatory of Music, who laid the foundations of the young pianist's magnificent technique. Later he went to Berlin to study with Josef Lhevinne, the celebrated Russian pianist, and still later he spent some time with Ernest Hutchinson in New York. He had completed plans for a concert tour of leading European cities in 1914, but this had to be abandoned on the outbreak of the Great War, and he returned to Toronto where, in 1916, he joined the faculty of the Conservatory of Music.

He has toured widely in concert, and is known from coast to coast of this continent both through his solo appearances with a such leading musical organizations as the Mendelssohn Choir, the New York Symphony Orchestra, the Toronto Symphony, and the Paulist Choir of New York, and as a radio artist.

RAILWAY CUTS DINING COSTS

Southern Pacific Establishing "Fixed Price" Dining Service on Trains

Sweeping reductions have been made in the prices of meals on Southern Pacific dining cars through the introduction of an entirely new fixed price service, whereby a complete five-course luncheon or dinner will be served for as low as 80 cents, according to an announcement by B. C. Taylor, general agent for the company at Seattle.

Under this new service a complete meal is served for the price of the entrée, including soup, salad, entrée, vegetables, bread and butter, beverage and dessert.

The new service has been established on the Cascade, Portland-San Francisco; the Sunset Limited, between San Francisco and Los Angeles, and the San Joaquin, between San Francisco and Los Angeles via valley route. It is expected to be extended to other trains as rapidly as arrangements can be made. It has been inaugurated on these trains in time to benefit many thousands of holiday travelers who are taking advantage of the railroad's cent-a-mile fares being offered during the holiday period.

This service is considered the most radical change yet made in the dining-car department of any railroad, according to Mr. Taylor, both as to downward revision of prices and variety of choice. It is in keeping with the company's policy of tempering its fares and other travel costs to meet the demands of the traveling public.

Col. S. M. Rogers Says Good Work Being Performed at Jasper Camp by Jobless Men

Colonel S. Maynard Rogers, who is in charge of Jasper Park under the Department of the Interior, is at the Empress Hotel for the purpose of taking a rest. In connection with his duties at the park, he has had a strenuous season's work in the carrying out of improvements there, utilizing the unemployed.

At the present time some 700 or more are engaged in these camps under the plan carried out between the Provincial and Dominion Governments. This number is being added to, he says, at this season of the year.

Colonel Rogers has praise for the men who are in the camps, stating that they are doing honest work. The maintenance of these camps is being properly kept up, and the men are being treated well. The province is wise and everything is well administered.

Colonel Rogers, who for a large part of his life has served with the colors, takes a very deep interest in the work in hand. As a result, he is feeling the need of a holiday, and has been granted leave for a few weeks.

MAYOR TO OPEN WORK EXHIBIT

Arrangements for First of Boys' Hobby Fairs Nearly Completed

The Victoria Boys' Hobby Fair, which will be held in the Y.M.C.A. under the patronage of His Honor the Lieutenant-Governor and Hon. S. F. Tolmie, Premier of British Columbia, will be opened by Mayor David Leeming, it was announced yesterday. In complying with the request, His Worship stated that he was greatly interested in the work and felt sure that it would receive proper encouragement from the citizens.

The fair, which will open on Thursday, December 29, is the first of its kind ever to be staged in this city. A large and varied list of competitive classes has been arranged and Harry Smith, under whose guidance the exhibition is being prepared, said he felt sure it would become an annual winter fair, gaining in size and popularity every year.

Many of the service clubs in the city are co-operating with the Y.M.C.A. in the enterprise, and a number of valuable prizes have already been donated.

Tickets are now on sale, and competitors are reminded that all entry forms must be handed in to the Y.M.C.A. not later than Monday, December 26.

Captain Wanderwell Buried at Sea

THE body of Captain Walter Wanderwell, adventurer and traveler, who was slain on board his yacht just previous to his setting sail on a mysterious sea voyage, being placed on board the yacht Carma, the ship upon which he was murdered, from which it was cast into the sea, thus bringing to an end the brilliant career of the noted traveler.

Holiday Festivities Necessitate Extra Work Around Home

"If men would only realize the large amount of extra work that holiday festivities make around the home, they would insist on additional help being employed," officials of the Employment Service state, while suggesting that at this season the spirit of helping others might well be practised by employing a woman for a few days to assist his own women folks.

The cheer will be cheerier, the fire brighter, and that comfortable feeling even more comfortable if the additional work is given to someone needing it rather than placed on already busy shoulders.

SEARCH IS MADE FOR MISSING MAN

Friends Worried Over Disappearance of J. C. Jordan Last Friday

Police yesterday were asked to search for J. C. Jordan, ex-naval officer and former vice-principal of the Alert Bay Indian School, who has been missing from his rooming-house, 223 Denison Road, Oak Bay, since Friday.

On Friday last he telephoned to the rooming-house to say he was visiting his friend, Capt. L. Barrie, of Normandie Apartments, and would stay the night.

When Captain Barrie heard of this telephone message, he immediately started making inquiries, as he had not seen his friend on Friday. Neither had he received any telephone message from him. Owing to the fact that Mr. Jordan was not in good health, his friends are worried about his safety. He is described as being 5 feet 8½ inches in height, clean shaven, fair complexion, wearing a soft, grey hat, trench coat and a navy blue suit when he left the rooming-house.

Mrs. Wm. Garrett Laid to Her Rest

QUALICUM BEACH, Dec. 21.—The funeral service for Emily Mary, wife of William Garrett, aged fifty-five years, took place at Nanaimo on Tuesday afternoon. The pallbearers were Messrs. A. Fraser, P. Burgoon, W. Norris, J. Fellers, J. Dougan and G. Stiercker. Mrs. Garrett was amongst the first settlers in Qualicum Beach, coming to Canada from the Isle of Man.

Of a gentle personality, she made many friends in the district until late years, when her ill-health prevented her going out much. She interested herself in all local affairs of the parish, and the old days of the building of the first Anglican and Presbyterian churches. Her sudden death on Saturday evening, as she was entering her home, after a motor trip to Nanaimo with her family, came as a great shock to her many friends. She is survived by her husband, one daughter, Mrs. Abra (Mona) and two sons, William and Edward.

GOVERNMENT TO STUDY ANSWERS

Reply to B.C. Municipalities on Relief Stayed for More Consideration

Premier Tolmie said last evening that the government had reached no decision as to its reply to the request of British Columbia municipalities for variation of the terms or direct relief in municipal centres, possibly on the altered cost of the brief of the Union's executive before it, and began a detailed examination of the proposals made in that connection.

Some additional information is to be gathered by the Government on certain phases of the issue, and this too, was under advisement. No decision was reached.

A definite reply to the Union's request is to be made later in the week. It was intimated, after careful consideration of the case from all angles.

COUNCIL MEETING FINALLY SETTLED

Regardless of Statutory Holiday, New Body Must Convene on January 2

The first meeting of the 1933 City Council will be held on Monday, January 2, a statutory holiday, it was announced at the City Hall yesterday by H. S. Pringle, city solicitor.

In giving a definite ruling on the matter, Mr. Pringle pointed out that the provincial statutes declare that the first meeting shall be held on the first Monday in January.

This precludes any change in the arrangement, Mr. Pringle stated. Regardless of the fact that Monday is a public holiday by Dominion law, the council must, nevertheless, meet.

There is nothing to prevent the council from meeting for five minutes and then adjourning, he explained, and this is probably the course that will be adopted.

CULBERTSON ON CONTRACT

By Ely Culbertson World's Champion Player and Greatest Card Analyst

THE WIDE APPEAL OF BRIDGE

So widespread is the interest in bridge that a magazine of national circulation has been conducting for many months a contest among its readers, offering cash prizes for the most interesting hands. The editor of this magazine states that no feature ever received such instant and widespread approval from the readers.

Cash prizes are offered. Naturally, the hands submitted in such a contest vary in interest, but many of those which do not receive prizes disclose the high standard of technique of bridge players everywhere.

One of the hands submitted in this contest, which failed to receive a capital prize, but was yet extremely interesting, is the following, submitted by Miss Harriette Peinberg, of Philadelphia, Pa.: West—Dealer.

Both sides vulnerable.

The Bidding:
South West North East
Pass 4 4 4NT
Pass 5 5 6 7
Pass Pass Pass

It was fortunate for East that the new trump overcall of an opponent's pre-emptive bid was available as a forcing bid; otherwise he would have been in quite a predicament. West's response of five hearts was quite correct, and, although undoubtedly East's grand slam was an overbid, it could not be too severely subjected to censure.

The play was interesting in that South was at one time forced to undertrump in order to preserve his protection, but was finally squeezed

anyway by a merciless West. North opened the spade king, and the first trick was won by the singleton ace in dummy. The ace and a small heart were then led, disclosing the fact that South held all the missing heart honors. Declarer led his last spade and trumped with the king of hearts in dummy. On this trick South undertrumped by playing the heart six; it was apparent that any other play here would have been fatal. West's count on the hand was now quite accurate. Placing nine spades with North originally, this rendered South's distribution as probably 4-4-4-1. With this certainty he was able to lead the ace-king-queen of diamonds and follow with the last heart. South duly followed to all these tricks, but when declarer finally laid down the heart queen, on which the diamond three in dummy was discarded, he was obliged to pass with either the good diamond or a low club. When he chose the low club, declarer took the club finesse, dropped the king with the ace, and claimed the last two tricks with the knave seven.

A contract which had been rather rashly overbid was made through faultless technique.

TOMORROW'S HAND—The bidding and play of the hand printed below will be discussed tomorrow:

Children of Anglican Mission Receive Gifts—Bishop and Archdeacon Present

The Anglican Chinese Good Hope Mission, 523 Johnson Street, was crowded to the doors last night on the occasion of the annual Christmas tree and entertainment given by the children of the mission. The story of the Nativity, one of the features of the programme, has never been presented with greater reverence, or acted with more sincerity than by the Chinese boys and girls who took part in the play.

In two parts, the first under the chairmanship of Rev. Clarence Lee, the Chinese missionary, the second under the chairmanship of Ven. Archdeacon Laycock, who is in charge of the mission, the programme introduced for the first time on such an occasion the Chinese Boy Scouts and Brownies. The incident was well received by the scout and guide authorities of the city, Major Vice representing the former, and Mrs. H. Archibald, the latter.

DRILLS WELL DONE
The drills, singing, and singing of each group were admirably done, both units showing alertness and neatness in movement. The scouts introduced a seasonal touch by translating aloud the greeting, "A Merry Christmas to You All," signalled by one of the boys in Chinese characters, and the Brownies' reference to the Yuletide was made by the substitution of fir branches for flags in their principal drill.

The musical part of the entertainment consisted of carols, including "Hark, the Herald Angels Sing," "Christmas Morn" (sung by fifteen girls), "Children and Shepherds," and "The Night Before Christmas." An Adore Hymn, in which the audience joined heartily and reverently, Gloria Lee, Susanne Lang and Dorcas Chan sang songs. Maurice Chan and a number of other boys took part in an illustrated reading, and Miss Sue Lee gave a piano solo.

PLAY IN CHINESE
In addition to the Christmas play, there was a Chinese play, "Zacharias Since Having Seen Jesus," which was also well acted. The first part of the programme was entirely devotional, and the last, Rev. Clarence Lee introduced Bishop Schofield, who expressed his pleasure in being present, and congratulated the children on their part in the preparation and performance of the programme. The Scouts and Brownies, newcomers to these annual entertainments, were particularly praised. The Archdeacon briefly addressed the audience, the performers, and all those who had taken part in the preparations, with special reference to Rev. and Mrs. Lee and Mrs. Field.

The hall was prettily decorated with festoons of var-colored paper chains, silk banners, Christmas bells and greenery. The Christmas tree was a particularly important feature, sheltering dozens of prettily-wrapped gifts which were distributed to the children of the mission by Lady (Richard) Lake at the end of the programme.

Santa Claus Entertains Children of Veterans

Nearly 300 Youngsters Are Guests at Christmas Tree Party at A.O.F. Hall—Tea and Programme Given

Nearly 300 children, many of whom had never seen Santa Claus before, enjoyed a wonderful entertainment yesterday afternoon at the A.O.F. Hall as the guests of Britannia Canadian Legion No. 7, on whose behalf a resplendent Father Christmas, in frosted red robe and cap, distributed gifts of candies, oranges and toys to the great gathering of excited youngsters.

The entertainment began at 2:30 o'clock, consisting of a delightful programme with burlesque performance, a shadow-show, songs and instrumental numbers, a sumptuous tea and the distribution of the gifts from the Christmas tree. This last, of course, was the much-looked-forward-to climax of the afternoon, and took place in the main hall, where the fifteen-foot-high tree, resplendent with festoons of tinsel and swaying bits of glitter and colored lights, filled the delighted eyes of the children when they came upstairs from the dining-room. D. G. Holmes did the honors for "Santa," and did them so well that the hall was presently a wild pandemonium of excited voices and a litter of wrapping paper.

Comrade W. G. Stone presided and introduced the artists: Percy Fletcher, of the Army and Navy Veterans, who by special invitation came to furnish the pianoforte part of the programme; Harry Hutchinson, Jack Pullen and Arthur Cross, who gave a delightful burlesque entertainment; Miss Agnes Finn and Miss Hilda Jacques, tap dancers; Comrade Jones, vocalist; Thomas Obee and Stanley James, whose humorous double act entitled "Hiddidy-Titi Island" and limericks, evoked screams of laughter; Miss Evelyn Finn, another clever dancer; Harry Hutchinson and Jack Pullen, who gave violin and banjo numbers; Miss Merryfield, a clever young dancer, and Boyd McGill, whose original hand-shadow show of animals, comic characters and well known personalities, kept the spectators enthralled for half an hour.

The tea arrangements were in the very capable hands of Mrs. Grace Fawcett. Rev. E. F. Church pronounced the grace. The beautiful

big tree was brought in and put up by W. Russell, Jr., and decorated by Robert Yard and R. Nicholls.

Officers Are Selected by Soroptimists

Miss Alma Russell was returned to the presidency of the Soroptimist Club of Victoria at the first annual meeting of the society, Tuesday night, at Miss Foxall's studio. Election of officers followed an evening devoted to consideration of the report of the by-laws committee, of which Miss Lottie Brown is convener. These were all adopted. The result of the election was as follows:

President, Miss Russell; vice-president, Miss Lottie Brown; recording secretary, Miss Ella Pottinger; corresponding secretary, Mrs. Helen Hurn; treasurer, Mrs. Elizabeth Mills; directors, Mrs. Dorothy Spurr, Mrs. A. M. Robertson, Mrs. Florence Nutrie, Mrs. Eva Baird, and Miss Aikens. Reports of the secretary, Mrs. Spurr (read by Miss Pottinger, in Mrs. Spurr's absence), and treasurer, Mrs. Mills, were received, showing satisfactory conditions in the organization. The report of service work showed that twenty persons would have Christmas fare provided for them as the result of hampers which will be sent out by the club during the current week, the funds for this work having been raised by means of the bridge party held in November.

Sister Soroptimist societies in Liverpool, South Croydon and Halifax (England) and Washington, D.C., sent Yuletide greetings. The next meeting of the group will be a dinner meeting at 6:30 on the evening of Tuesday, January 3, at the Y.W.C.A.

Beaux-Arts Make Final Dance Plans

Final arrangements were completed on Tuesday night for the Beaux-Arts dance to be held on Monday. From the report of the committee the dance will be one of the most outstanding affairs during the festive season. Every small detail has been given particular attention by the committee and every one who has procured tickets will be ensured of an excellent programme. The music will be provided by a five-piece orchestra which will play the most popular dance numbers. The orchestra, dressed as pirates, will be seated on the deck of the miniature "Saucy Ann," specially built for the occasion. Programmes have been made by the members and will be distributed amongst the dancers.

Prior to the first supper waits a chorus of six charming girls, dressed in brilliant pirate costumes, will dance and sing. Those taking part will be Misses Aileen Cullum, Sue MacKenzie, Lorraine Pendray, Helen Schwemmer, Barbara Lloyd-Young, and Josie Lloyd-Young. Two suppers will be served, the first at 10:45 and the second at 11:30 o'clock. After the supper extra tickets will be given another treat at this time in the form of a novelty pirate dance by Miss Frances Oldham, one of the talented members of the club, about 12 o'clock pirates will carry on to the dance floor a large treasure chest filled with novelties to be distributed amongst the dancers.

AT YACHT CLUB

When the decorating is completed the Yacht Club will truly represent an old seaworthy galleon, with pirate flags and streamers, rattling around the veranda, rigging, treasure chests, beer bottles with candles for lights, and a very live parrot in its cage. Punch will be served from the "storeroom" from a stout sixteen-gallon keg. The following patrons of the club will be present: Mrs. C. E. McNeill, Mrs. W. H. O'Brien, chairman; Nell Mulreath, programmat; Mrs. J. Findlay, music; and choruses: Gordon Bell, business; and E. T. Simmons, advertising, assisted by several other members. The sale of tickets has been limited to one hundred and twenty-five couples, and practically every ticket has now been sold. Dancing will continue from 9 to 2 o'clock.

Possible to Predict Where Deep Sea Fish Grow Most Prolific

Investigations of North American Council of Fisheries Organization Furnish Valuable Data for Fishermen of Atlantic

Scientists carrying on fisheries research in the western North Atlantic are gradually finding it possible to predict the probable abundance of various species of fish before the fishing seasons set in and thus enable the fishermen to gauge more accurately the scale on which their outfitting preparations should be made.

Progress in this direction was reported at the recent 1932 meeting of the North American Council on Fisheries Investigation, which was held at Washington, and was attended by W. A. Fourn, deputy minister of the Dominion Department of Fisheries, Dr. J. P. McMurich, chairman of the Biological Board of Canada, and Dr. A. G. Hunter, of the Biological Board staff, as Canada's representatives. Newfoundland and the United States, two of the other countries which are members of the council, were also represented, but no one was able to be in attendance from France, the fourth member country.

Saint John Named Port of Opportunity

SAINT John, port of opportunity, Canada's great Atlantic terminal, is already in the midst of a flourishing season. A steady stream of liners and tramp steamers from all parts of the world are now ploughing Saint John-ward for freight, grain and passengers. This picture shows the Canadian Pacific liner *Duchess* of Richmond (with double funnels) taking on freight, passengers and mails on December 9 for the Christmas sailing.

White Star Ship Has Shipment of Bullion for U.S.

CHERBOURG, Dec. 21 (AP).—The liner *Majestic* is sailing today with 139 cases valued approximately at \$3,500,000, consigned to American banks. A large shipment of gold from the British Government in payment of the December 15 war debt interest was also reported to be aboard the *Majestic*.

probable abundance of mackerel last year would mean a catch of approximately 35,000,000 in the United States, and the actual landings totaled 32,182,000 pounds.

Reports of many different investigations were made during the council's sittings—reports on bait investigation, bottle work, hydrological study, plankton study, and investigations into the cod, herring, mackerel and haddock fisheries. Dr. Hunterman told of research touching the effect of warm temperature in increasing herring abundance in the Bay of Fundy district. W. C. Herrington, one of the United investigators, told of progress being made toward predicting the probable abundance of haddock from year to year, and spoke of the use of the new type of trawl—the "savings" trawl—which reduces the capture of small, immature, and unmarketable fish and gives them a chance to grow to commercial size.

NEW COMMITTEE

In the course of the meeting, it was decided to set up a hydrographical committee for the purpose of centralizing hydrographic data collected off the coasts of America, which must largely be the basis for fishery predictions. No one could effectively review the changing conditions in all the area influenced by the Gulf Stream and the Arctic currents, and all countries should benefit from a general pooling of the ascertained facts, and hence the decision to establish the committee.

Dr. Thompson, Newfoundland, was named as chairman of the committee, with Mr. Herrington as the United States member, and H. Hachey, of the Biological Board staff, the member representing Canada. It is expected that France and the Iberian Peninsula will also have a corresponding member.

"PIERHEAD JUMPERS" HAVE VANISHED WITH OLD-TIME SEA CRAFT

Writing in the P.L.A. Monthly, A. E. Widger revives memories of the days when last-minute additions to take the place of absentees among ships' crews were not infrequent. Deckhands or engine-room men were always on hand for a "pierhead jump."

"These wayfarers of the sea, foot and jettam, sometimes cut a sorry figure, scantily clad—your trawlerman is never overloaded with clothes—with a well-greased cap which had served many lines. A bunch of 'gear' in a colored handkerchief probably consisting of the jumper's entire worldly possessions, would complete his outfit."

"The destination of the vessel and the length of time away were of no consequence to the 'jumper.' He just wanted a job to earn shakels and have a roof over his head. Some of the men had probably waited at the docks for several tides in the hope of getting a ship. How great a contrast with the clockwork regularity and routine with which the sailor signs on and off today."

Grain Exports Lighten Slightly During Past Week

VANCOUVER, Dec. 21 (CP).—During the past week the grain export movement lightened slightly, the total for the past seven days being 1,943,526 bushels, according to the regular weekly statement of the Grain Exchange Division of the Vancouver Merchants' Exchange. This brings the season total to 42,751,661 bushels, as compared with 21,997,009 bushels at this time last season.

There are ships in port to load 2,404,000 bushels, and balance of December bookings are 3,777,334, while incomplete bookings for January total 7,596,666 bushels. Last season nearly 50,000,000 bushels were exported from this port between January 1 and the end of the crop year.

Japanese Traders Unable to Supply Demand for Goods

Japan's export trade is booming as never since the Great War, according to Japanese advisers arriving here during the present week. The full force of the decline of the yen is beginning to be felt. Imports in foreign lands are becoming convinced of the advantage of carrying Japanese lines and are rushing to get Japanese connections. This is the golden age of the Japanese exporter, and the golden age of the importer who does business with him, it is stated.

Low Level of Yen Presents Great Opportunity for Foreign Importers to Make Money by Buying From Japan

On December 12, 1931, the Japanese Government reimposed its embargo on exports of gold. The yen started to fall. During the first half of 1932, however, there was little gain in export trade. Activity was confined principally to the domestic market. Speculators in Japan believed that prices in Japan would rise sharply. They bought hand-over-fist. No one paid much attention to the export field. Then the true state of affairs began to be evident. The purchasing power of the domestic market had not risen, for there had been no inflation and the country districts (comprising 85 per cent of the country's population) were unable to buy. Speculators saw prices fall below the pre-embargo figures and lost money.

Slipped Again

Then the yen slipped again and the export trade began to see that it was in an ideal position. Domestic prices were not rising, but the competitive ability of Japanese goods was soaring in the export field. Lines which had never been exported began to be sold to foreign buyers.

Bulk Commodities in the Export Market are Largely Handled by the Great Family Companies, such as the Mitsui Bussan Kaisha, which handles miscellaneous lines. But one of the features of the international market since the beginning of July has been the steady rise of the small manufacturers who never realized that they had anything to sell which people abroad might want to buy. These concerns, perhaps, attempted the export field in days gone by, but found themselves unable to compete. Now, with the yen at little more than 40 per cent of its previous level, they are able to compete, providing they can find reliable agents to handle their goods abroad and provide they can manage the business from the home end.

Lack of an experienced export organization has, in most cases, been the greatest handicap which many of the Japanese concerns have had to overcome. They wish to export direct in most cases, which means that they must handle the majority of the boxes waste time in corresponding. Instead of turning the business over to an export house, they are being rapidly overcome. More and more Japanese business houses are finding, with the greatest of ease, that they are losing money by not having experienced export help.

FIELD STILL NEW

The export field, it is said, is still so new for hundreds of Japanese products that there are profits for everyone on both ends. Throughout the world, importers are trying to get in touch with Japanese exporters. Except in the bulk lines it is not important that they get the cheapest Japanese producer, for there is little likelihood that enough Japanese houses will ship their goods

Chester Morris

In New Success

The old saying, "to the victor belong the spoils," might be true in most cases, but in the latest World Wide picture, "Breath of Promise," which comes to the Columbia Theatre today, Chester Morris and Mae Clarke, who enact the stellar roles in this dramatic version of Rupert Hughes' story, "Obscurity," give an outstanding example of the exception which proves the rule in this case.

As the young and handsome lawyer who saves a pretty girl from drowning, one would naturally expect the hero to win the maiden's heart and hand. But nothing of the sort. The girl turns round and not only does she collect the tidy sum of \$50,000, she also makes a million-dollar fortune.

Joel McCrea's athletic prowess stood him in good stead when he was cast as hero with Dolores Del Rio in "Bird of Paradise," the added attraction.

An under-water fight with a shark, a wrestling match with a turtle weighing 310 pounds, and the climbing of great coconut trees were among the several strenuous feats assigned the young actor when the company went to Hawaii to film the dramatic Walton Tully's well-known play.

Great interest is being shown in the production of "Alice in Wonderland" to be given at the Empress Hotel on Monday and Tuesday next. This type of entertainment at Christmas is a happy one. No child's story is so universally popular as this and it is remarkable how many quotations from this wonderful book are to be found in our every day English.

The beautiful spacious reception rooms of the hotel, with their apt Christmas decorations, will make a delightful background for this pantomime.

MUCH INTEREST SHOWN IN HOTEL PRODUCTION

A company of more than eighty-five will take part in the production to be given by the Victoria Operatic Society on Monday and Tuesday nights, December 26, 27, and matinee, Monday afternoon.

Members of the company taking part in this production are as follows: Kenneth Morris, William Herbert Barclay, Fraser Lister, Harry John, Dudley Wickert, Cliff Prescott, Marjorie Barker, June Hayes, Anne Bapty, Dulcie Hamlet, Marjorie Watson, Selma Carver, Pauline Waring, Dorothy Parsons, Edith Oliver, Florence Gunn, Reginald Stoffer, Thelma Johns, Phyllis Deville, Peggy McDougall, Emilia McConnan, W. Harkness, and a large chorus of singers and with dancers trained by Violet Powkes.

The production is under the direction of Madame de Turckynowicz and Wanda de Turckynowicz again has charge of the staging and scenic effects.

A man who believes in looking ahead and preparing for the future says that if you have a girl baby you should begin planning today money now to support your future son-in-law.

Night Club Daughter

By KATHARINE HAVILAND-TAYLOR

CHAPTER XV
Early in September Joyce Wister Almond came to town to see her dentist. At one o'clock, through with drills and cringes, she dropped in to Michael's rooms for a slight of him and luncheon. He had for luncheon, of course, everything she liked; Michael was that way.

"Thought you'd never get here," he said, as his sister returned from the room where she had tidied her much ruffled hair.

"You have been yearning to see me, haven't you, Love?" she questioned ironically. "Haven't been near me for positively dozens of weeks! Long bleak ones, too, let me tell you!"

She sounded a little gayer, Michael realized with great relief. "I've been frightfully tied up," he said shamefacedly. Had he really neglected her, he wondered, unhappily.

"Why? There isn't a thing you can't leave to someone else; you know," she questioned and stated. "I've had Carroll on my hands," he explained.

"Oh, for heaven's sake!" she murmured, with a rueful smile, which turned warm as she added, "I love that child and I don't resent your interest. I have reason to care for her, you know; it was she who saved you from Marcia Terrell's frantic clutch!"

"Why, why bring that up?" asked Michael wearily; he had heard it a few times before.

As they moved to the dining-room, he explained that there was no one else to help Carroll and she particularly needed help and that he had gone through hell.

"Explain," Joyce ordered as she dropped to the chair that Michael pushed under her.

"Well," said Michael as he sat down, "she's engaged to young Norris, and—"

"Really, Michael?" Joyce broke in, obviously surprised. "I've heard nothing of it!"

"You can bet you haven't," Michael assured her grimly. "He's making it a back-stairs affair and the child can't, or won't, see it; I can't tell you, she's very obstinate."

"You poor darling," murmured Joyce casually.

"I've talked to her," said Michael, "and I've told her exactly what I think, and as a result, she treats me as if I were a leper. The other day I went there and I know she was in."

"Theresa reported that Carroll was in, and I could tell by Theresa's manner that she resented doing it."

"But really, Michael, considering everything, wouldn't it be rather a good marriage for her?" Joyce asked.

She had almost forgotten the Fourth of July as celebrated in the good old days, but Michael's manner of rejoinder brought it back.

Basketball May Be Included in Games Events

NEW YORK, Dec. 21 (AP).—The game of basketball has become so popular in Europe that there is a movement under way to have it included in the programme of the Olympic Games. Daniel J. Ferris, secretary-treasurer of the Amateur Athletic Union, reported today after a discussion of the game with Charles Marcano, Italian sportsman. The possibility of a European tour by some American cage team also was talked over.

(Ex-Magee, Pearson (Varsity) and Lighthouse (Ex-Magee). Thus the Vancouver Union will send nine men, Victoria six and Varsity three. Originally it had been intended to send four from Varsity and eight from Vancouver but difficulties in suiting the selected men to the positions is said to have necessitated the change.

Selected players unable to make the trip are requested to notify Mr. Stoen at once.

Oxford Group Leaders Making Tour of Canada

WIDELY conflicting opinions on the work of the Oxford Group, who are touring Canada have been expressed by churchmen, many of whom have repeatedly attended meetings of the group. Unreserved admiration for the readers of the movement and the results they have inspired in their progress across the country is mingled with stern criticism. Many ministers, however, preferred to reserve their opinions. Here are prominent members of the Oxford Group Movement who arrived from England to join their fellow-workers, snapped as they registered at the King Edward, Toronto. Stocks Steadier But Bonds Drop At Wall Street

NEW YORK, Dec. 21.—The stock market today put the brakes on its recent downward slip, but contented itself mainly with holding prices as they were. There was little evidence of a rally.

Some of the industrial favorites, including United States Steel preferred, responded to the lack of sharp covering, running up a point or so, but the main body of industrial stocks were steady or only fractionally higher.

Tobacco and railroad stocks looked rather feeble, most of them declining under scattered, but fairly steady, liquidation. The copper stocks also skidded for a time, when boardroom gossip turned to the question of large surplus stocks of the metal and prospects for further price cuts, but in the late trading were about steady. Foreign copper prices were again firm. Trading was again quiet, transfers totaling 777,980 shares.

Owens-Illinois Glass, after sliding down more than a point at one time, closed slightly higher on a report in the late trading, after the success of the wet group in a test vote on the beer bill in the house in Washington.

Preliminary reports of car loadings by individual roads for last week were something of a cheerful surprise to Wall Street.

Estimates placed the probable decline in loadings at about 15,000 cars for the entire United States, a figure which, if it proves to be correct, will record for the week a decline that is somewhat less than seasonal.

The bond market again stepped down to a lower level today despite resistance displayed by the highest grade investment groups. Continued pressure on some of the semi-speculative issues was the weak link in the price chain. The rails were the principal sufferers, although a few of the utilities exhibited a declining trend. United States governments were generally firm.

Volume increased on the down grade, sales totaling \$11,781,000 against \$10,120,000 yesterday.

With the exception of the international 5 1/2's and 7's, most of the German obligations sagged under profit-taking. An easier tone was also shown by some of the Australian, Japanese and Italian.

Leading Stocks at Eastern Exchanges Are Little Changed

MONTREAL, Dec. 21 (CP).—Holiday spirit prevailed on the Montreal Stock Exchange today and stocks sagged slightly, because what little selling there was exceeded demand. Turnover amounted to only 3,900 shares.

Market leaders were substantially unchanged on the day's trading. Canadian Pacific, which was unchanged, while Canadian National eased 1-4 to 15 1/4. Half-point declines were shown by B.C. Power and Power Corporation.

A feature of the day's trading was the appearance for the first time this year of Price Brothers preferred stock came out at 2, down 68 points. Since the last sale the company has defaulted its bond interest and has been reorganized. Dominion Coal & Coke, which declined 1-2 to 39 1/2. The bonds have been declining for the past month on two consecutive days, and today's price was under 4,000 shares, the lowest for a full session this fall.

A little buying developed in International Nickel, which closed unchanged at 8 1/2. Ford "A" was offered in small blocks, which broke at 10 1/2 to 10 3/4. Canadian National recorded a gain of 1-4 to 15 1/4. C.P.R. was unchanged at 15 3/8. Consolidated Smelters lost a half point to 61.

Quietness in the oil section was outstanding because of heavy selling that has recently taken place in B.A., which traded only six shares, and closed unchanged. Imperial and International Petroleum recorded fractional gains, the former closing at 8 1/2 and the latter at 11 3/4.

All banking stocks were down except Toronto, which gained 4 points to 164. Bell Telephone lost 1-8.

TORONTO MINING MARKET

TORONTO, Dec. 21 (CP).—Interest in the Standard Mining Exchange listings today centred in Siscoe and Eldorado, which were under active accumulation all day.

The rest of the board was dormant, except for a turnover of 174,000 shares of Algoma, whose balloon was punctured sending it down to 3 cents.

There was no life in the high-priced gold today. Dome picked up 15 cents to 13 1/2, while Lakeshore and McIntyre 20. Pioneer of B.C. was unchanged at 4.50.

About 40,000 shares of Siscoe changed hands with the price closing up 2-1/2 points at 96 1/2. Other secondary golds moved within a narrow range.

The copper shares were off color, with Nickel slipping to 8.75. Noranda to 19.00, Hudson Bay to 3.10 and Ventures to 63.00.

Algoma's drop from 5-1/2 to 3-1/4 followed the penny game.

Values at Winnipeg Advance When Pressure of Offerings Lightens

WINNIPEG, Dec. 21 (CP).—The first time in many seasons pressure of offerings lightened, sufficient export demand appeared to bring a measure of firmness to trading in wheat on the grain exchange here today and prices closed 3-8 to 1-2 higher.

December closed at 40 1-8, May at 42 5-8 and July at 43 3-4.

Foreign trade was not large, but another bullish factor was the general tone of world grain news. The Australian new crop is some 2,500,000 bushels less in a Government report, and United States Government reports on the new winter wheat crop to the south were construed as bullish.

That Body of Yours

By James W. Barton, M.D.

VARIATIONS IN BODY ACTIVITIES DURING THE DAY
You may own a clinical thermometer and find early some morning that your temperature is down around ninety-six and a half degrees or ninety-seven degrees F. As the normal temperature is about ninety-eight and a half degrees F. you may be wondering if there is anything wrong with you.

On the other hand, you may take your temperature at four o'clock in the afternoon and find that it is ninety-nine degrees F., which is about one-half degree above the normal.

Now as a matter of fact the difference between the early morning temperature and that of the afternoon is usually about two degrees in the average well individual. Similarly with the pulse rate. You may be lying in bed some morning after a good night's rest, and by putting the tips of the index and middle fingers against the big bone of the wrist on the thumb side, you find the pulse beating at the rate of sixty-eight or less to the minute, which is below the usual seventy-two. Some time later in the day you find even when doing no work or taking no exercise that your pulse rate is eighty beats to the minute.

Research physicians are now finding that what is called the metabolism of the body may also vary considerably, even when taken before breakfast on different mornings. The metabolism rate is the rate at which the body processes work when the individual is resting quietly with no food being digested. Dr. D. Rosenbaum, Russia, states that he and one of his assistants recorded the body energy for twenty-four-hour periods and found that the variations during one year

ranged ten or fifteen per cent of that taken the first day.

What makes the rate slower or faster than normal?

It may be due to some condition in the individual himself such as a slight infection, or it may be due simply to his thoughts and emotions.

This means, then, that when this test is made that if high or low, any treatment, surgical or otherwise, should not be given until a number of tests have been made. Blood pressure is another measurement which should be taken a number of times and at different hours of the day before a definite statement is made.

Therefore in measuring the heart rate, pulse rate, metabolism rate, and blood pressure, the variations even in normal individuals must always be remembered.

Policeman (to schoolboy): "Who owns this cow and calf?"

Schoolboy: "I don't know who owns the cow, but I have an idea who owns the calf."

Policeman: "Well, who owns the calf?"

Schoolboy: "The cow."
